

ANY BACKGROUND CONVENIENCE CARE

Althing leverages the Phrazer/Kitsune platform that is the only capable of meeting the constitutional Civil Rights requirements for health service.

Althing services personalize to patient culture, gender, age, literacy and race to best convey and relay vital information. This one-of-a-kind service is employed at the clinic, on the portable qualified health systems, in district use and across all private clinic services.

Althing is the only medical service in the world providing equal care and engagement to all patients. Whether a patient speaks English, Karen, Somali, Hmong or 100s of other languages, Althing provides zero wait, totally private, no translator required service.

Through proprietary technology, providers are able to receive vital health and decision aiding information, in English. Providers can communicate directly with patients with each receiving in their own language.
