

ALTHING MEDBAY

 Pulse Pressure	 Continuous Blood Pressure	 Blood Saturation	 Pulse Rate	 Respiratory Rate
 Systemic Vascular Resistance	 One Lead ECG *Patch only	 Heart Rate Variability	 Mean Arterial Pressure	 Skin Temperature
 Stroke Volume	 Cardiac Output	 Cardiac Index		

Featuring: 60db+ noise cancelling, antimicrobial interior, bright, active air handling/filtering and active and passive vital sign functionality.

Stand-alone, private health encounter space designed for meaningful and convenient use in districts to provide onsite behavioral and general health encounters. The Althing MedBay is private and automatically begins reading vital signs upon entry helpful to the encounter.

With the Phrazer/Kitsune engagement system, users are provided an FDA grade, safe and secure platform to engage with their providers. Scheduled behavioral health encounters or unscheduled convenience care for minor injury and illness is always available.

Althing schedules visiting providers for specialty service including but not limited to:

- behavioral health
- wellness & physicals
- inoculations & labs
- and more

Althing Clinic supports all encounters.
