

Embedded Clinic Services from Althing

- * Convenience Care and Wellness onsite
- * Reduce your healthcare spend
- * Improve employee performance and retention

Preventative & Proactive

A focus on behavioral and preventative health to catch challenges earlier thereby reducing suffering and costs significantly.

Financial Benefit

Readily available onsite care with inoculations and checkups reduces absenteeism due to illness and shortens time away from work.

Personalized Care

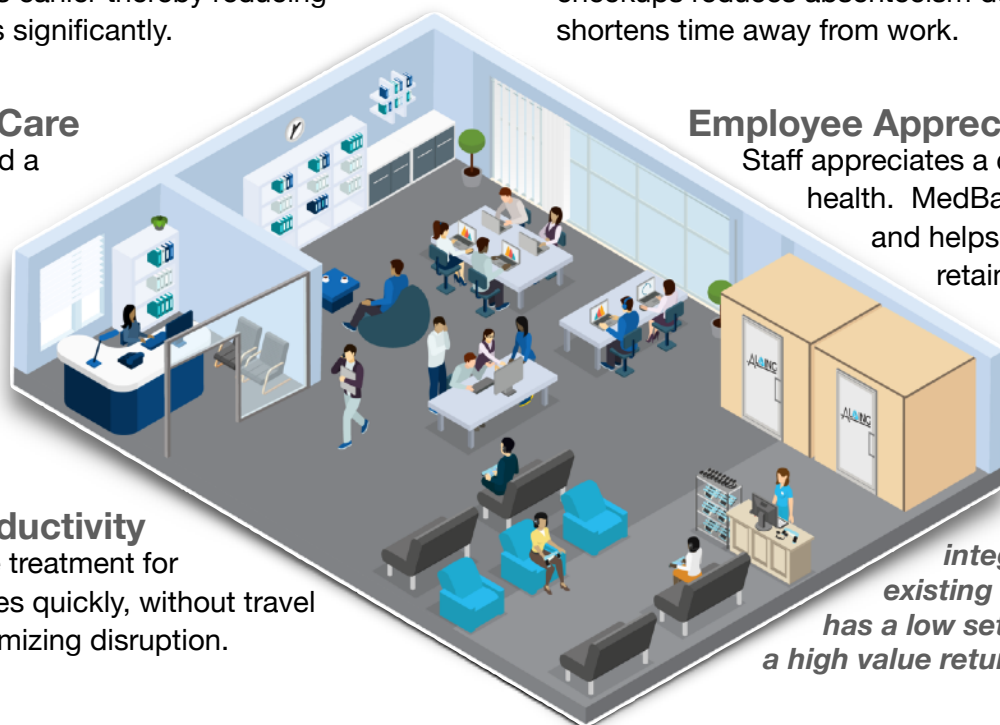

MedBays help build a more personal relationship with employees empowering better health management tailored to their needs.

Improved Productivity

Employees receive treatment for illnesses and injuries quickly, without travel requirements, minimizing disruption.

Employee Appreciation

Staff appreciates a commitment to their health. MedBay boosts morale and helps to attract and retain top talent.

MedBay™ integrates into existing spaces and has a low setup cost for a high value return

MedBay™ is powered by the only FDA grade care platform, Phrazer/Kitsune. Proactive clinic encounters can be scheduled right at employee's desks. Staff can even take PhrazerKitsune home for their families. Encounters can be personalized to your population and language needs.

HIPAA, safe and configured to your needs:

Staffed hours with Providers, available as scheduled.

Virtual encounters with qualified Providers are available anytime. Convenience Care, for the most common chief complaints related to minor injuries and illnesses.

Labs & Inoculations as well as exam capabilities are available.

Behavioral Health encounters are convenient, private and comfortable with MedBay's 60db noise cancelling feature.
